Charley Harper Designs

How it works:

The first two letters CH and HC are when the design was created. The prefix CH was the first design to be put on canvas. If you are looking for a specific design and you know the name look at the first letter after the CH or HC. Example CH-F006 is Fishful Thinking. All of the designs are placed under the first name of the design. Look in the F's for Fishful Thinking. The design listing below disregards the CH and HC but is placed in alpha numeric order to make it easier to find the design.
